

# Disc Brake Cleaner

## TECHNICAL DATA

### PRODUCT OVERVIEW

Formulated to remove brake dust, dirt, oil, brake fluid and other contaminants from the surface of your disc brake rotors. Its fast acting formula dries quickly leaving no residue.

### PRODUCT FEATURES & BENEFITS

- Jet actuator allows you to spray accurately into brake callipers
- Powerful spray shifts dirt and grime quickly
- Fast drying and leaves no residue on the rotor
- Stabilises brake performance and 'bite feel' keeping your brakes consistent
- Compatible with all metallic surfaces, helps prolong life of discs and pads.
- Helps with the prevention of braking harmonics

### RECOMMENDED USES

Disc Brake Rotors  
Callipers

### DIRECTIONS FOR USE

Use in a well ventilated area. Spray product onto disc brake rotors, pads and into the callipers. Allow to evaporate and wipe any excess away with a clean cloth. Always test brake operation after any maintenance.

### TECHNICAL DATA

#### Physical Properties

Appearance:	Clear, colourless liquid with a characteristic organic odour.
pH:	Not applicable, non-aqueous
Specific Gravity:	app. 0.710 at 20°C
Viscosity:	Thin free flowing liquid. Extremely volatile.
Active Content % m/m, as supplied:	> 90
Flammability, as supplied:	Extremely flammable, flash point below -20°C
Composition Data, as supplied:	A solution of naphtha (petroleum), hydrotreated light and iso-propanol with carbon dioxide propellant.
Service temperature:	Designed for use at ambient temperatures only.

### PACKAGING SPECIFICATIONS

Case Code:	44564
Unit Size:	400ml
Case Size:	400ml x 6
