

Wet Lube

TECHNICAL DATA

PRODUCT OVERVIEW

A high performance lubricant designed for use on bicycle chains and drive-trains. This formula contains anti-corrosive and water displacement additives for improved performance in wet conditions and protection from road salt. Also contains PTFE for reduced friction.

PRODUCT FEATURES & BENEFITS

- Contains high performance anti-corrosive additives
- Water-displacement properties
- Contains PTFE for reduced friction
- Increases drive-train efficiency
- Penetrates rapidly into chain links, protecting all surfaces
- Twist cap for variation on flow for a more precise application
- Characteristic GT85 fragrance

RECOMMENDED USES

Bicycle chains
Drivetrains.

DIRECTIONS FOR USE

Ensure chain and drive-train are clean and dry. Shake bottle thoroughly before use to ensure the PTFE is fully dispersed. Twist spout to open. Apply to the inside of the chain for better penetration, ensuring entire length is coated. Allow some to penetrate before riding.

TECHNICAL DATA

Physical Properties

Appearance:	A cloudy dark straw liquid with a perfumed odour.
pH:	Not applicable
Specific Gravity:	0.869
Non Volatiles % m/m	99.25%
Flammability:	Non-Flammable
Composition Data, as supplied:	A solution of paraffinic lubricant, anti corrosive and water-displacement additives, PTFE and fragrance.
Service temperature:	Designed for use at ambient temperature.

PACKAGING SPECIFICATIONS

Case Code:	44559
Unit Size:	80ml
Case Size:	80ml x 6
