SILICONE SHINE

PRODUCT FEATURES:

This product is designed to give an all over great shine to your bike. The fast evaporating formula acts quickly and is easy to apply with no need to buff.

PRODUCT BENEFITS:

- Freshens and shines.
- Reduces friction.
- Helps prevent cracking / premature ageing of rubbers.
- Fast acting, virtually instantaneous evaporation.
- Great all over finish.
- Easy to use, with no need to buff.

TYPICAL APPLICATIONS:

This product is designed for use on laminates, polyurethane, chromium, carbon fibre and other polymeric materials.

DIRECTIONS FOR USE:

Simply shake can well and apply to a clean surface. **WARNING** Do not apply to tyre tread, braking surfaces, saddles, hot parts, fabrics and control surfaces.
